The Buzz on Zotero

INSIDE
HIGHER ED

"The most striking thing about Zotero is how well the designers have combined **simplicity, power, and efficiency** — none of them qualities to be taken for granted with a digital research tool. A relatively clueless person can learn to use it without exhaustive effort." — Sep. 6, 2007

WEB WORKER
DAILY

"Zotero is as slick as any commercial product, the documentation is deep and tasty with lots of nicely done screencasts and the developer info is some of the best Open Source project docs I've seen."

What Users Are Saying

"The sexiest, awesomest citation manager ever.... It not only solves the problem of having to switch between Word, a reference manager, and your browser, and cut-and-paste and retype things manually, and it lets you keep track of lots and lots of information and organize it in ways that let you make better use of it. In short, **leaps and bounds better than anything that existed before.**" — HUMAN-COMPUTER INTERACTION STUDENT BLOGGING AT EMPIRICAL INSANITY

"The software was not only a **snap to install**, but so amazingly smooth in terms of user interface and functionality." — E. GABRIELLA COLEMAN, ASSISTANT PROFESSOR OF CULTURE AND COMMUNICATION AT NEW YORK UNIVERSITY
