Things to Note:

- 1 Featured slider revised to show title and excerpt to right, along with navigation arrows and bullets to indicate number of items, user activated. Due to coding and scripting limitations, the title and excerpt have to stay together next to image. (Plus separating them could introduce a usability issue.)
- 2 Snippets removed from teasers,
- 3 The community area has been moved up and will only appear on the home page.
- 4 The persistent footer now includes logos, site nav, and copyright info.

Transportation

Headnote text here of 100-110 words.

Shown here are 110 words. The young nation's history when neither national nor state governments could provide funds for good roads construction, state charters allowed groups of investors to purchase shares of stock in turnpike corporations. In exchange for building and maintaining turnpikes with private funds, the turnpike company could charge travelers a toll for the use of its facility, and thereby make a profit for its shareholders. This model of a privately owned stock corporation chartered and regulated by the state government was first used for turnpikes but would be applied to other modes as.
